## **Application for the position of Angular Developer**

Dear Hiring Manager,

Interesting and exciting vision of Mr. Gert-Jan: ListNRide Mobility has sparked my enthusiasm to apply and become your Angular Developer. My ambitious interest in front-end development and my experience in developing Stock Market domain products using Angular will help to develop standard UX/UI, Responsive design and scalable products.

Having 3+ years of experience in frontend by developing within the Stock Market product. I have developed strong expertise in Angular Framework, Responsive Design, Scaling & Optimizing Projects, writing Reusable code, RxJS for reactive programming using observables and subscriber.

The main achievements that I had in my previous position, that are highly relevant to your specific case.

- Developing responsive robust, optimize, scalable single page application using Angular Framework, HTML5, CSS3, Bootstrap, Angular Material, Javascript, Typescript, Firebase web services, MomentJs and various kinds of other libraries to support the requirements.
- Developing new features based on BRD, fixing issue tracker bugs in UAT environment.
- Ready to responsibility, Quick Learner, Learning Attitude, Team Player, Problem Solver, Love to help & learn from my colleagues.
- Achieved Hacker Rank certification on Javascript, Best Employee Award from my current company, had hike on position to Project Lead, several endorsements and recommendations.
- Good in English speaking also started to learn Deutschland A1 level course to gel with team members.

In addition, Also worked in several startup companies at start of my career where I worked on different technologies like Ionic Framework for Hybrid apps, backend language Python and Flask framework.

My qualities and skills set will help to achieve the mission of changing ecosystem of ListNRide Mobility products. Thank you for your time and consideration. I look forward to hearing back from you soon.

Yours sincerely

Shreyas Ambre
